

**AIDS and Other Human Diseases
Change to Syllabus
Paper is Optional**

The required paper mentioned in the original syllabus is now optional. You may write the paper and it will be worth 5% of your final grade. If you choose not to write the paper, then the final exam will be worth 25% instead of 20% of your final grade.

Instructions for the Paper Option

Topic: Write an essay that either favors or opposes one of the following two programs targeted towards potentially preventing AIDS.

- A. Needle Exchange Programs
- Or
- B. Partner Notification Programs

The paper should be 3 pages in length. Use a standard 12 point font (not bolded) with 1 inch margins all around.

In order to earn the highest grade possible, the paper should cite outside sources to support your arguments. Well written papers that do not cite outside sources can earn up to a grade of B.

The paper is due on Tuesday, November 4th

No late papers will be accepted
