AIDS and Other Human Diseases
Vaccines
Read article on webpage for vaccines
(//web.whittier.edu/chemistry/iimoto/AIDScourse.htm)
Read Chapter 9 in AIDS Update 2003 (294-306)
Due – Tuesday, October 21

Name _____

1. What is the general purpose for a traditional vaccine like that for smallpox?

2. Scientists have modified/expanded the purpose/goals for developing an AIDS vaccine. What is this new purpose and how is it modified from the traditional purpose of a vaccine?

3. What are different types of vaccines? (i.e. – what is a vaccine composed of?)

4. How is a vaccine specifically designed to interact with the immune system and thus be effective?
